

# The #1 solution for nephrostomy patients

Designed by radiology and urology professionals with help from nephrostomy patients.

**No more** re-sitting nephrostomy tubes that have been pulled out.  
**No more** wasting valuable clinic time arranging for hospital products to be supplied to patients within the community.

NephSys is a secure, fully adjustable waist-belt drainage system with luer lock connectors. Cost-effective and available on FP10 prescription in the community.

Comfortable, undetectable under most clothes and connects to all universal night drainage bags.

Model used to safeguard patient privacy.
